

Convenient

Fidelity Life offers you term life insurance that features our **RAPID**Decision[®] process. It is among the most convenient application and underwriting processes available in the industry. Utilizing the Internet and the active involvement of our underwriters, the application and approval processes have been streamlined to allow you to obtain coverage in days, not months. **Policy issuance does not require a medical examination.** Instead, approval for a policy depends upon your answers to health questions on the application and third-party data.

Features

Fidelity Life's **InstaTermSM** product provides guaranteed level premium periods of 10, 15, 20 or 30 years in benefit amounts up to \$500,000. Coverage is available for people ages 18 to 65 years.

Premium Examples

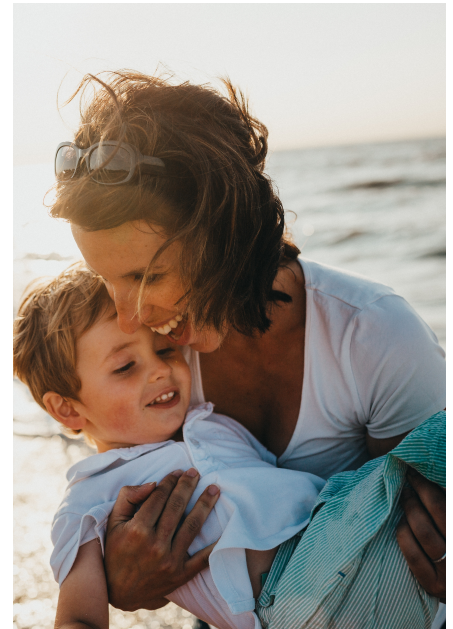

Rates shown are monthly premiums and are based upon underwriting approval. Fidelity Life accepts monthly recurring payments via EFT and credit / debit card (other modes and direct-bill also available).
